

OTHER WAYS YOU CAN GET INVOLVED!

Offer a **corporate gift** to our Community Impact fund. Any amount helps support our community. United Way helped impact over **40,000** lives last year!

Offer a **United Way workplace campaign** in your business, allowing your employees to learn about the resources in the community addressing some of our greatest needs, and allow them the chance to donate to help support the community through payroll deduction.

Provide a **company match** for any dollars raised; Many businesses do this to leverage the support created by their employees.

Encourage employees to **volunteer** in the community by joining our volunteer network at Get Connected

What ideas do **YOU** have about how United Way can work to support your business and employees?

United Way works to impact local lives by identifying the ever-changing community needs and investing resources into quality programs. We target areas of health, education and income to strengthen our community.

United Way recognizes we are only successful with the wonderful support from our business partners. Please review the options and select as many as you are interested in. We will then work to assure you have the support from our team to create meaningful experiences that impact our community AND your employees in so many ways, while obtaining recognition for your business and building employee engagement.
